PRODUCT SAFETY- CALIFORNIA PROPOSITION 65

Matrix Source Industrial Co. Ltd. products meet all recently passed federal safety and warning requirements. These standards are monitored and enforced by the FDA (Food and Drug Administration), CPSIA (Consumer Product Safety Commission), UL (Underwriters Laboratories) and the FCC (Federal Communications Commission).

Our products that are shipped to California are also subject to Proposition 65. Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986, was enacted as a ballot initiative in November 1986. The Proposition was intended by its authors to protect California citizens and the State's drinking water sources from chemicals known to cause cancer, birth defects or other reproductive harm, and to inform citizens about exposures to such chemicals.

“Safe Harbor” Level limits have not been fully established by Proposition 65 for all materials used. Customers may request that prior to shipment the following Proposition 65 warning be applied to their products:

WARNING: This Product contains chemicals known to the state of California to cause cancer, birth defects or other reproductive harm

This warning label will assist in compliance with California Proposition 65 regulatory requirements.

Because we have no certainty where you may distribute our product/s, the safest way to comply with the regulation is to place the above label on goods that “may” be shipped to the State of California. We will be happy to provide the label FREE OF CHARGE upon request, in writing at time of order.

Please feel free to contact us with any questions or concerns info@matrixsource.com.hk
